If you have any concerns about the Community Covenant, please explain them. You may also use this space to offer suggestions for ways to improve the Covenant.

I like the concepts. I also like the idea that the Covenant sets forth an agenda (or plan) for City Officials to follow. One of our City's problems, at least in my opinion, has been the lack of follow up (and implementation) on good ideas. My guess is that many people running for office will be supportive of the ideas listed here. But it is one thing for us all to agree to a set of guidelines; it is another to strongly push and implement an agenda of items that actually holds to the core values of the Covenant. The key will be in both initiating the Covenant and then following up to make sure that the principles of the Covenant continue to be followed. Hold us accountable.

In addition to this Community Covenant, what other suggestions do you have for making Nashville a more equitable city?

I believe Nashville is at a crossroads. We are moving ahead in some areas, but not moving in others. As Nashvillians, we ARE all in this together. The more people understand the issues and the potential solutions, the better the City will be. Help drive the understanding of the issues surrounding the principles of the Covenant; and then bring people together to help drive the change.
